

ORIGAMI DI FIORI: UN BOCCIOLO

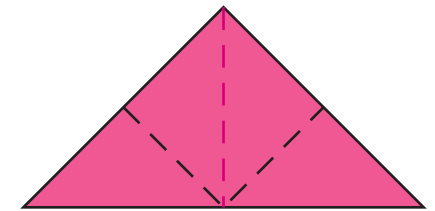

1. prendi un foglio quadrato e piegalo lungo le diagonali e riaprilo

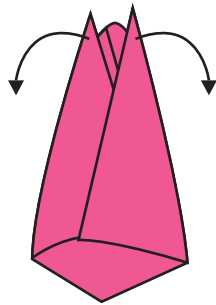

2. gira il foglio e piegalo lungo le mediane

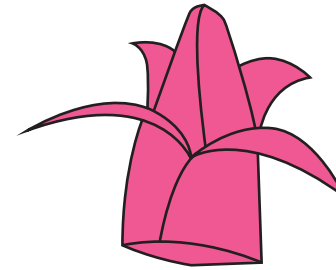

3. piega il foglio come nel disegno

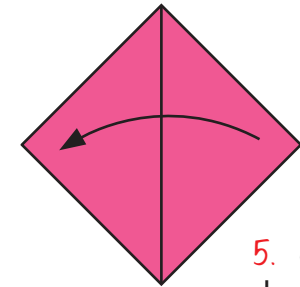

4. piega le estremità in modo che si incontrino al centro

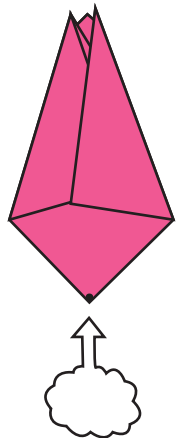

5. chiudi e apri le parti laterali

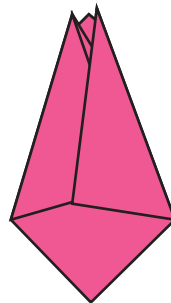

6. piega l'estremità in modo che superi la metà

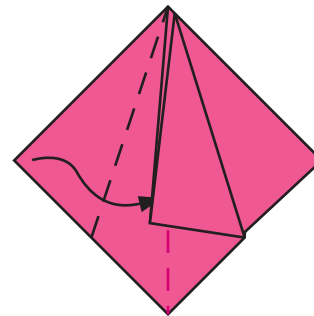

7. fai la stessa cosa con l'altra estremità

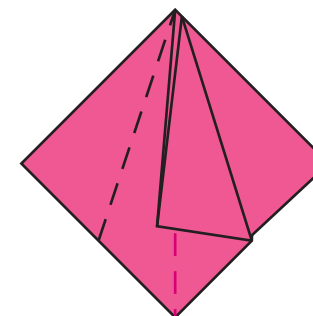

8. infila un'estremità all'interno dell'altra

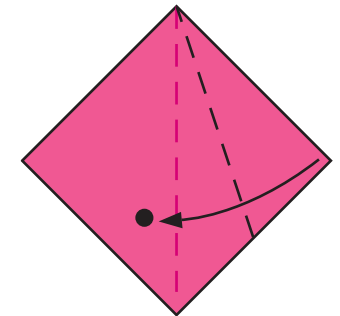

9. segui lo stesso procedimento nel retro

10. soffia dentro il bocciolo per gonfiarlo

11. tira con cura indietro i petali

12. il bocciolo è finito
